

**TO:** Council

**FROM:** Trudy Mauth, Chair, Discipline Committee

**DATE:** January 28, 2019

**SUBJECT:** 9.0 Review of Rules of Procedure of the Discipline Committee

---

**Purpose:**

To consider whether the College should undertake a review of the Rules of Procedure of the Discipline Committee.

**Background:**

The Rules of Procedure of the Discipline Committee (the “Rules”) apply to all proceedings before the Discipline Committee of the College. The current Rules were enacted on November 11, 1997. The Rules were last revised by Council on January 30, 2012.

Although the Rules do not set out a specific review schedule, it is generally considered appropriate to review all governing policies regularly to ensure currency. In addition, over the last 18 months, a number of important legislative changes have been made to the *Regulated Health Professions Act* and the *Health Professions Procedural Code* (such as Bill 87) which are relevant to the Discipline Committee and its processes.

In light of the foregoing, the Chair and Vice-Chair propose that the Rules be reviewed in 2019 and updated as required.

**Action Required:**

1. Does Council approve that the College undertake a review and/or update of the Rules of Procedure of the Discipline Committee?
