Report:

The Patient Relations Committee met via teleconference on Wednesday January 17, 2018. The Committee discussed the updates to the content of the Jurisprudence Module: Professional Boundaries and Sexual Abuse, as well as the corresponding test questions. The content and questions were updated to reflect the changes brought about by amendments to the *Regulated Health Professions Act, 1991* that resulted from Bill 87. The Committee approved all updated and pending changes to the Jurisprudence Module and submitted it to Council for review at their January 30, 2018 meeting.
